[lijie.su93@gmail.com](mailto:lijie.su93@gmail.com)

I am a full-time student enrolled in the Master of Computing and Innovation program at the University of Adelaide. I anticipate graduating in mid-2024.

In my most recent role as an Urban Planner at Atkins Beijing (July 2016 – July 2022), I actively contributed to numerous large-scale urban design and consultancy projects across China. I served as a project manager for several initiatives, honing my skills in strategic planning and team leadership.

My passion has shifted from traditional consulting to a realm driven by digital innovations, where technology serves as a catalyst for empowering businesses. My aspiration is to facilitate an enhanced and intelligent lifestyle for humanity.

Self-definition: an individual who is curious about the world, capable of rapid learning, and is committed to benefiting humanity. Hobbies: Cycling, Badminton, Skiing, Music, Meditation

## SKILLS

### Front-End Development

- Skillful in using React and Bootstrap to create high-quality, responsive webpages.
